\*As previously announced, the Electronic Reporting module has been retired this year. Even though Sage will no longer be updating the standard preprinted payroll and accounts payable tax forms (W-2, 941, and 1099) and the Electronic Reporting module for all versions as of tax filing year 2014, you will still have the ability to print all of these forms and many more using the Federal or State eFiling menu tasks. You will be able to print and/or electronically file W-2, 941, 1099, plus 250+ signature-ready federal and state tax forms to plain paper. There is no cost to print, but there is a minimal cost to eFile.

[Get more eFile details](#)

\*\*Sage reserves the right to determine if and when Hot Fixes will be issued.
